EXTRACTS. The Case of the Saxon. As a British subject actually lost his life at the hands of a Rederal officer on board the Saxon. the history of the seizure of that ship is of much more interest and importance than that of captures which have subjected British subjects to nothing more than inconvenience or loss of property. Lord DERBY did no more than his duty in pressing for the publication of the papers relating to the Saren at the earliest possible moment. It is the proper function of the Opposition to call on the Government to show the course it has taken in matters of such great national concern, and nothing can be more absurd, or show a more total misconception of the distribution of duties under the Par-Hamentary system, than to denounce the vigilance shown by the Opposition on such occasions as hostile and factious. It is not enough that the Government should have acted rightly; it must be shown and known to have acted rightly. Any impartial critic would be ready to admit that the view adopted by the Government in regard to the Agzen, and to the events that occurred on board her, and in connexion with her capture, was the proper one; but it is quite as much to the advantage of the Government as of any one else that this should be put beyond doubt. The leading facts of the case are as follows. The Federal war-steamer Fanderbitt left too of the Alabama and Georgia, but was not successful and returned to Table Bay to coal on the 27th of October. The Governor of the Cape. Sir P Wodehouse, however, refused to let her take any coals'on board, as she had received supplies of coal there within three months, and to permit a further supply before the period of three months had claused would be at variance with

the general instructions issued to Colonial Governors. She accordingly went northward to the guano island of Ichaboc, and the islands adjacent to it, and as it was rumoured that it was her intention to search British ships at Ichaboc, Sir BALDWIN WALKER very properly sent an English man-ofwar to prevent the search being made within British territories. The Vanderbilt, however, did not go to Ichaboe, but to an island about land, and to Angra Pequena Bay, on the West along the right bank, General Ko moved for- strength, and cheered the numbers vehomently.
